

## Vibrators and Feeders

### Overview

First manufactured to give us the control and quality required to accurately feed product in the pharmaceutical industry, Checkweigh vibrators are now used on our Linear Weighers, Multihead Weighers and custom manufactured vibratory feeders.

### Use

Vibratory feeders are ideal for moving product at consistent rates of flow. They can be used to feed conveyors, Linear Weighers, Multihead Weighers and production lines.

### Vibrator Specification

	V127	V140
Tray Deflection	Up to 3mm	Up to 3mm
Spring Plates	Cross Ply Glass Fibre	Cross Ply Glass Fibre
Spring Plate Configuration	Low Stress	Low Stress
Weight Without Tray:	17.5Kg	29.5Kg
Maximum Tray Weight:	6Kg	10Kg
Sealing:	IP65	P65

### Services

Electrical Supply: 220/240V A/C and 110V A/C
